

Name : Lemyaa salih

Academic degree: lecturer assist

Research area:

Future research plan:

Publications:

1- Synthesis and characterization of three new Schiff base based on Azo compounds.

2- Synthesis and characterization of some new (3- Acetyl -2H-Chromen-2one) derivatives.

3-synthesys and antibacterial activity of 1-N-(β -D-glucopyranosyl)-4-((1-substituted-1H-1,2,3-triazol-4-yl)ethoxymethyl)-1,2,3-triazoles.

4-DFT study of some benzo thiazol amine derivatives.
